

SOLOMONS SOLUTIONS
FUTURE READY BUILDING

COMPANY PROFILE

Projects

A collection of projects completed by Solomons Solutions

BUILDING WORKS | CIVIL ENGINEERING | DESIGN & BUILD

An established construction company

Solomons Solutions (Pty) Ltd specialises in building works, civil engineering works, addition and alteration works, upgrading works, design and build projects, and day-to-day maintenance.

We work on public and private projects for developers, government bodies and homeowners. We care about safety, timely handover, fewer defects and less wasted material.

WHO WE WORK WITH

Developers and property owners. Government bodies and public-sector clients. Homeowners and small businesses.

FROM DRAWINGS TO HANDOVER

One team from design to handover, with our design partner DSJ Designs for architectural designs and rendering.

WHAT WE DO

Our services

01

Building works

New builds and structural work, delivered to spec.

02

Civil engineering

Groundworks, drainage and site infrastructure.

03

Additions & alterations

Extend or reshape what you already have.

04

Upgrading works

Bring tired buildings up to standard.

05

Design & build

One team from drawings to handover, with our design partner DSJ Designs.

06

Day-to-day maintenance

Fast response for repairs and upkeep.

PARTNERSHIPS

Partnership in architectural designs and rendering. Partnership in marketing and distribution.

OUR VALUES

What we stand for

LEADERSHIP

Applying the vision, experience and energy of a strong leadership team to the pursuit of profitable growth.

CUSTOMERS

Gaining preferred status by delivering the projects, products and services that fulfil customer requirements.

BUSINESS CONDUCT

Professionalism and integrity. Open and honest disclosure of information. Disputes resolved by direct personal discussion.

PARTNERSHIP

Building trust with our partners, suppliers, financiers and advisors.

INNOVATION

Encouraging new ideas and better solutions to maintain a competitive edge.

EMPLOYEES

Enhancing diversity in our workforce by empowering women and the previously disadvantaged.

PROJECT | LENASIA, JOHANNESBURG

Lenasia Residence

A full exterior upgrade of a family home: paving, boundary walls with steel fencing, a slab-and-grass driveway and a container conversion.

Before

The yard started as bare ground inside a plain boundary wall and palisade fence, with no paving and no defined driveway.

Bare yard inside the boundary wall before work

During

Red and charcoal paving went in along the side of the house with a neat edge. A rock bed and paved verge were built along the street wall, and the driveway was set out in concrete slabs with grass strips between them.

Red paving laid along the side of the house

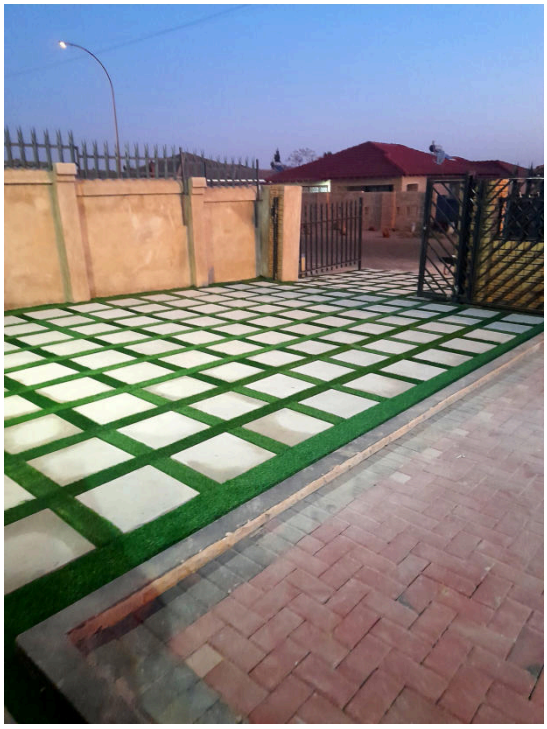

Rock bed and paved edge along the street wall

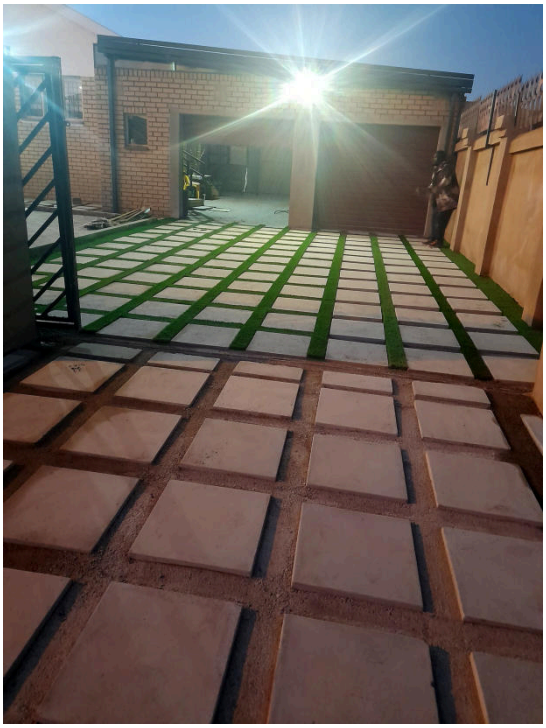

Driveway slabs and grass strips going in

After

The finished property has a red paved courtyard, a slab-and-grass driveway leading to the garage, boundary walls with decorative steel fencing, and a red container conversion with timber-clad doors.

Slab-and-grass driveway at dusk

Finished driveway leading to the garage

Driveway slabs and grass strips

After (continued)

Red paved courtyard with charcoal edge

Red container conversion with timber doors

PROJECT | JOHANNESBURG

Kota King, Doornfontein

Full shop fit-out: brickwork, plastering, steel bulkhead, LED lighting, tiling and finishing, from an empty unit to a trading counter.

Before

An empty shell of a unit: bare walls and floor, ready for a full fit-out.

Empty unit before work

Inside the empty unit

During

The counter brickwork went up first, then the steel bulkhead frame was fitted and plastered. LED lighting was installed and new floor tiles were laid.

Counter brickwork going up

Steel bulkhead frame

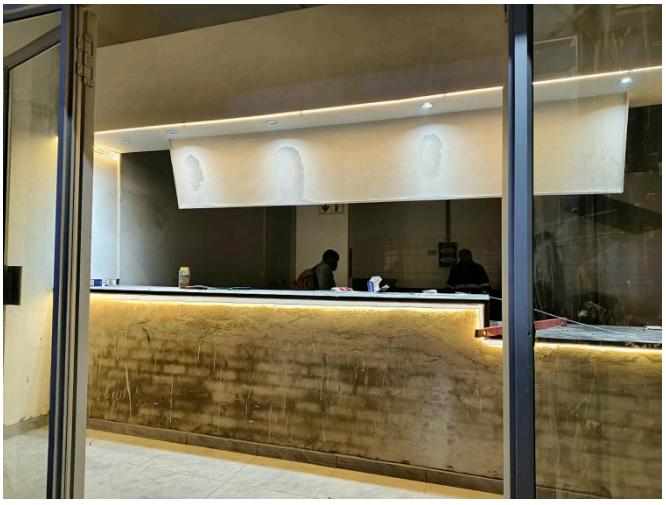

Crew fitting the bulkhead

During (continued)

Bulkhead plastered

Counter and LED lighting going in

New floor tiles laid

After

A finished, branded takeaway: painted bulkhead, lit counter, tiled kitchen and a shopfront ready to trade.

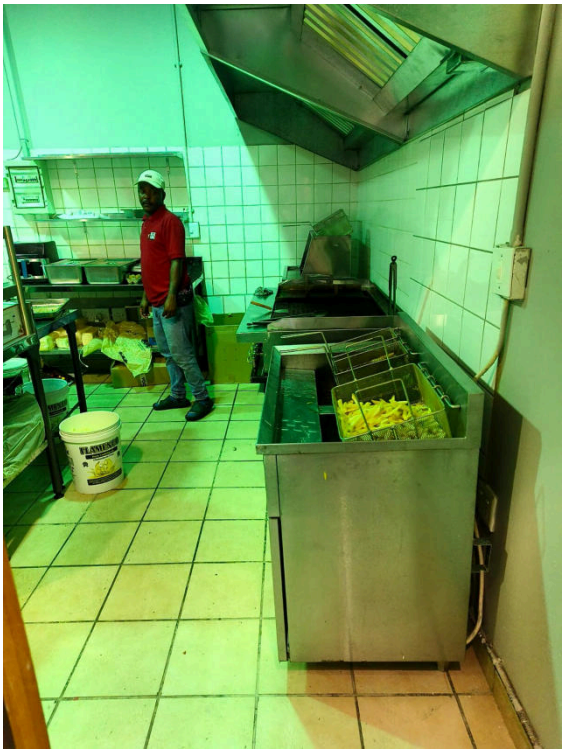

Finished counter and painted bulkhead

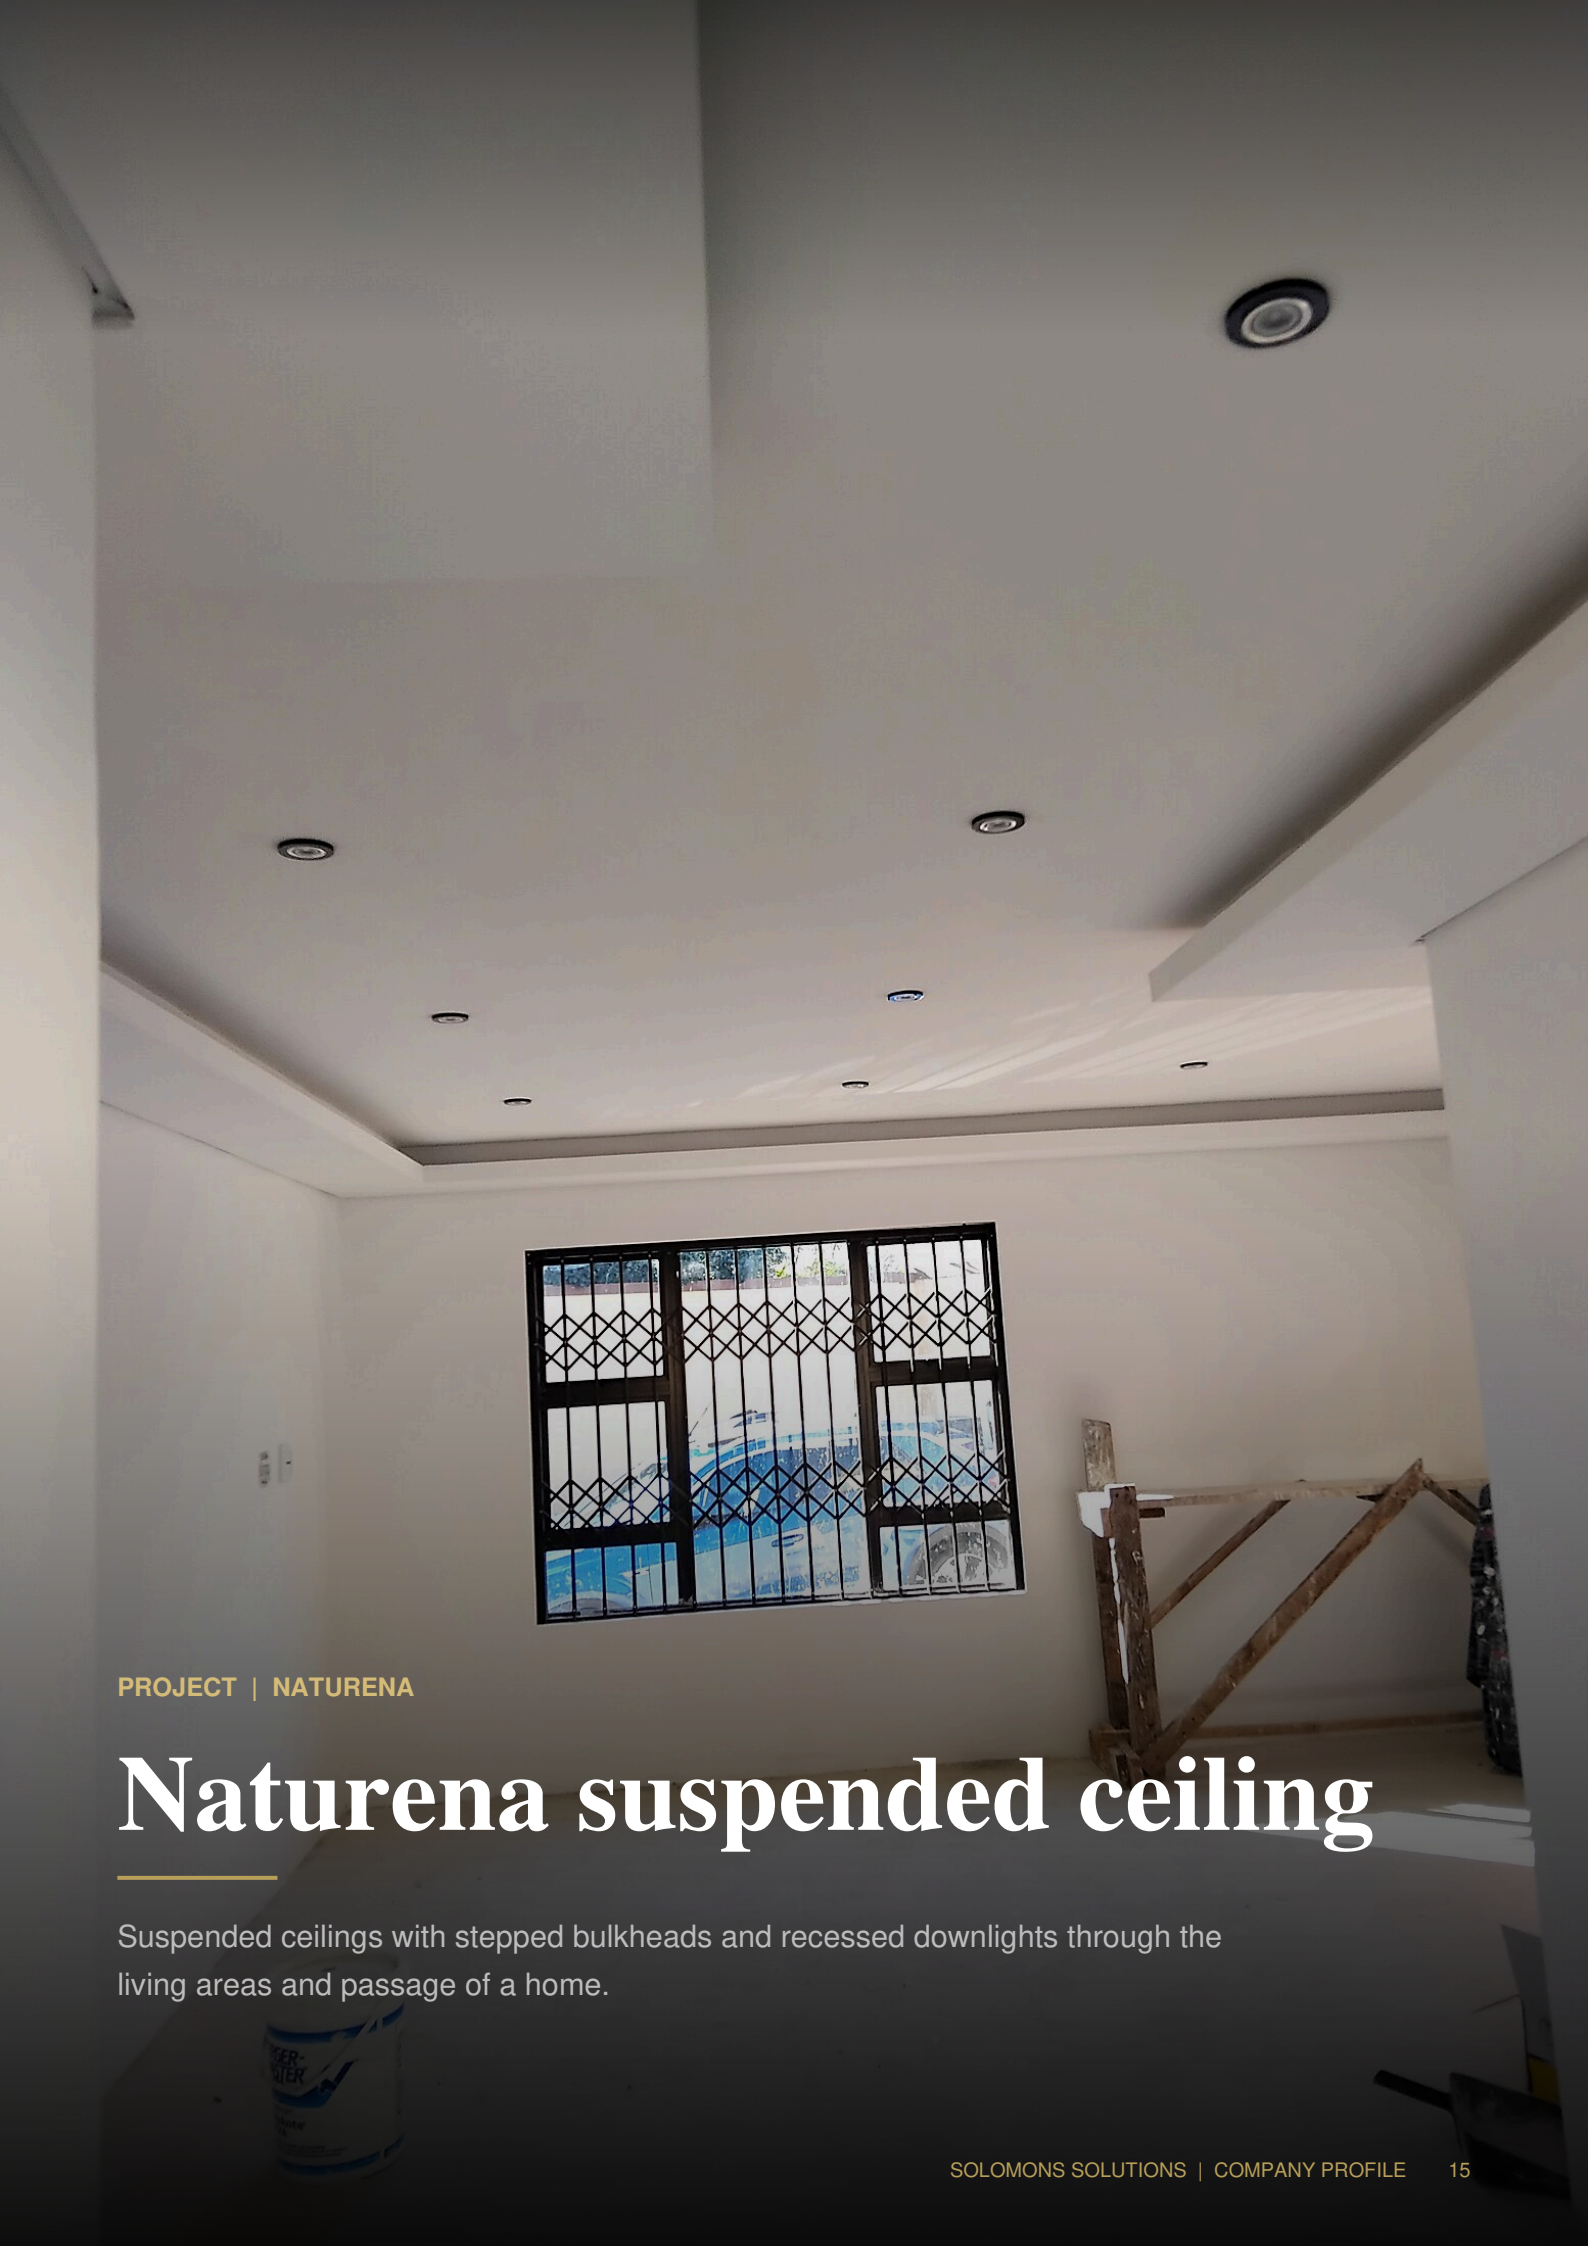

Kota King shopfront at night

Kota King from the square

Back-of-house kitchen

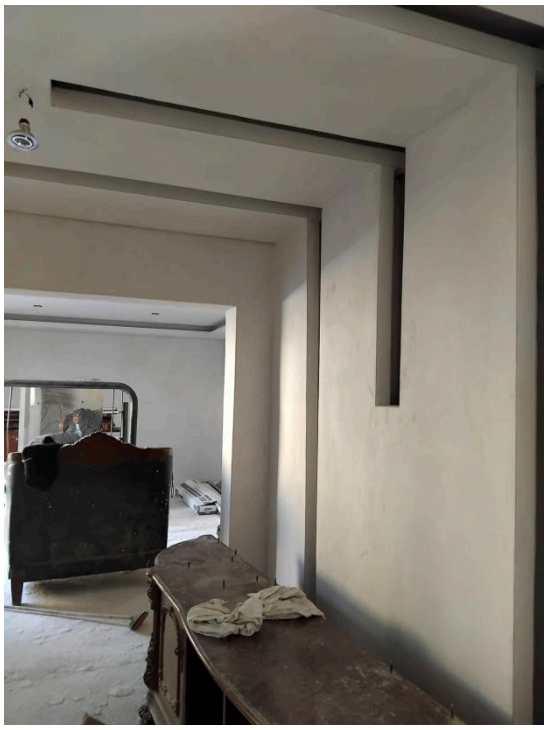

PROJECT | NATURENA

Naturena suspended ceiling

Suspended ceilings with stepped bulkheads and recessed downlights through the living areas and passage of a home.

During

Ceiling boards and bulkheads were framed and fixed through the lounge, dining area and passage. The recessed downlights were fitted and the boards finished smooth, ready for paint.

Bulkhead framing going up

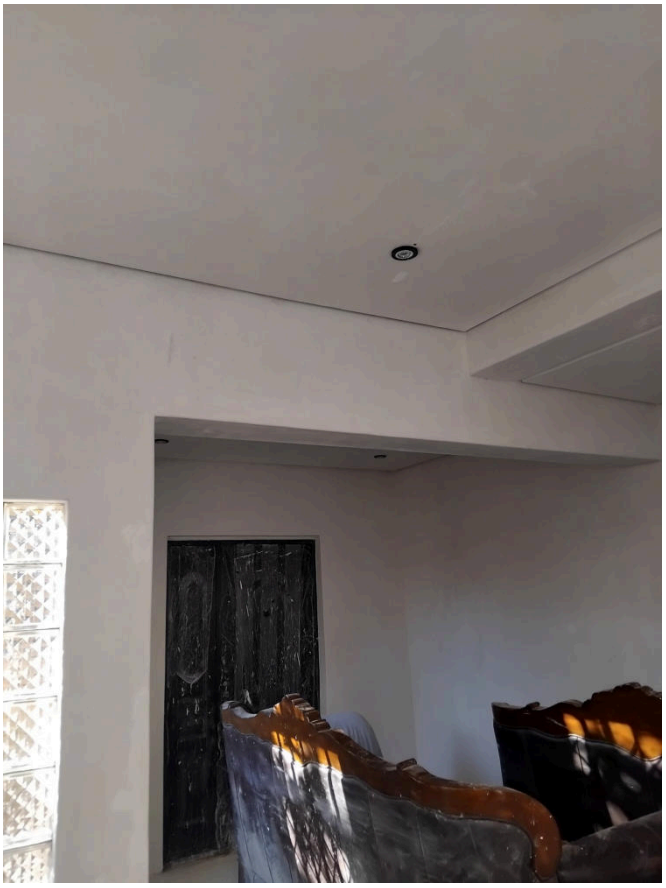

Ceiling boards and downlight

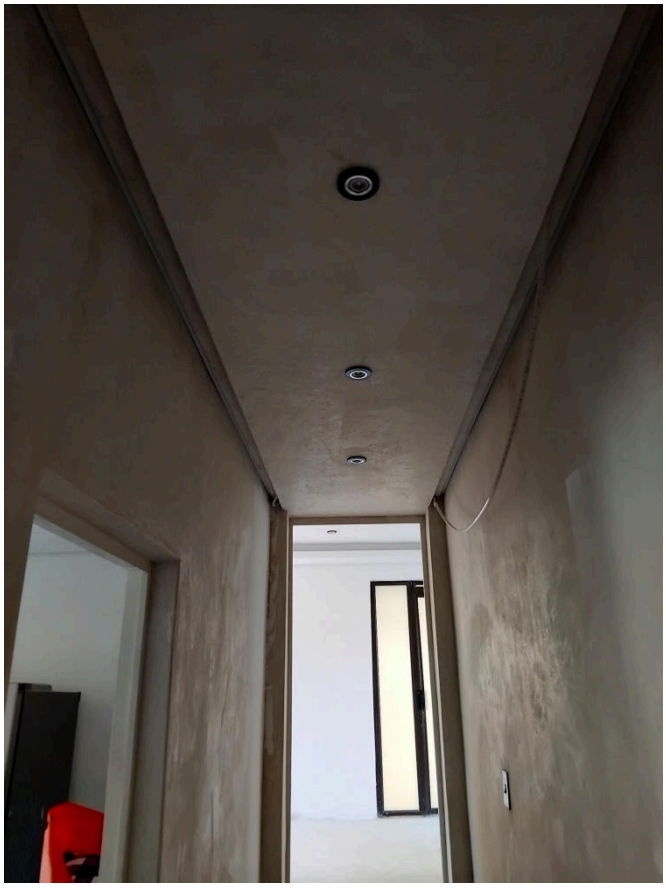

Bulkhead between the passage and kitchen

During (continued)

Ceiling and bulkhead in the lounge

Passage ceiling with downlights

After

The finished ceiling is painted white, with stepped bulkheads and recessed downlights over a bright, clean room.

Finished ceiling with recessed downlights

PROJECT | ROSEBANK

Oxford staircases

Exterior staircase retiling with dark slate-look tiles and aluminium nosings.

Before

The existing staircase had tiles marked for repair.

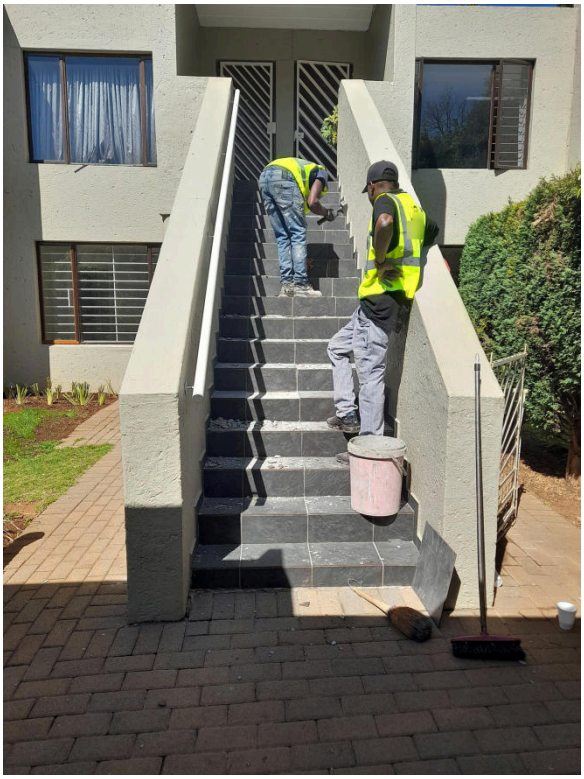

Staircase with tiles marked for repair

During

The crew chipped out the marked tiles and laid new dark tiles step by step.

Crew removing tiles

Crew at work on the steps

Crew working up the staircase

After

The finished staircase has dark slate-look tiles with an aluminium nosing on every step, neat edges against the stair walls and a white handrail.

Finished staircase with aluminium nosings

Finished staircase from the bottom

PROJECT | ALBERTON

Alberton bathroom refurb

A full bathroom refurbishment: old tiles and fittings stripped out, then new wall and floor tiles and a new suite.

Before

The old bathroom had beige wall tiles, a tiled shower base and an old suite. The crew started by taking out the fittings.

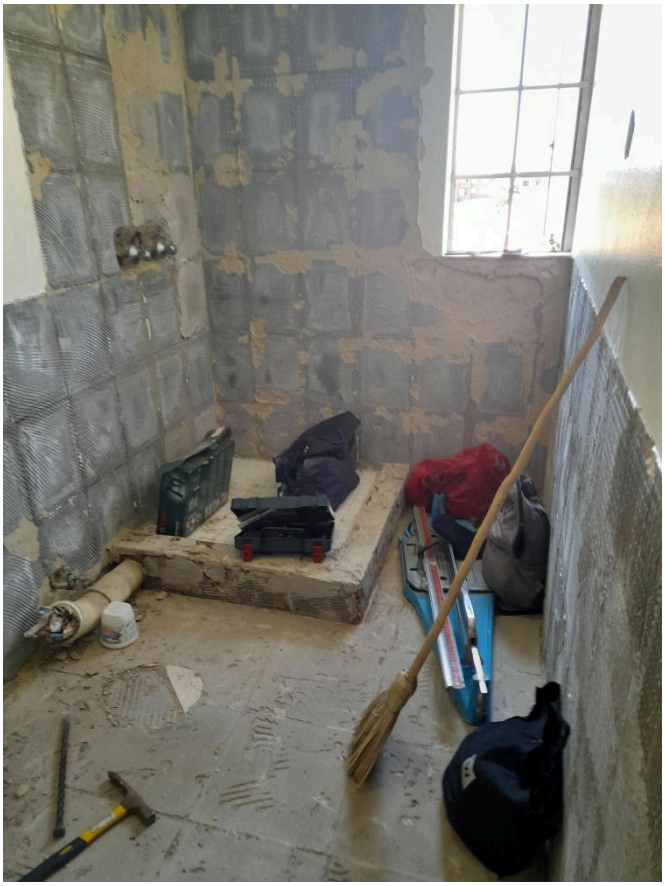

Removing the old toilet and cistern

Old bathroom during strip-out

During

The old fittings were removed and the walls stripped back to the bare surface, ready for new tiling.

Walls stripped back to the bare surface

Old fittings removed

After

The finished bathroom has new cream wall and floor tiles, a bath with brass-finish taps and a new toilet.

Finished bathroom

PROJECT

Protea gamazine

Textured gamazine wall coating applied by hand to the boundary and entrance walls of a home.

Before

The boundary and entrance walls were rough grey plaster, with cracks and patched areas.

Grey plastered wall and driveway

Curved garden wall before texturing

Entrance before texturing

Cracked wall corner

Street view before texturing

During

The crew applied the textured gamazine coat by hand, working across the walls and columns at the entrance.

Crew applying the gamazine coat

Texturing the entrance wall

Working on the entrance column

After

The finished walls have a warm brown textured gamazine finish, even and clean around the entrance.

Finished textured frontage

Finished textured corner
